

Write a program to find factors of numbers between 2 and 100.

Output could be like

Factors of 2:

Factors of 3:

Factors of 4: 2

Factors of 5:

Factors of 6: 2 3

Factors of 7:

Factors of 8: 2 4

Factors of 9: 3

Factors of 10: 2 5

Factors of 11:

Factors of 12: 2 3 4 6

Factors of 13:

Factors of 14: 2 7
